Dear Rita:

Just a short note to wish you and your associates a prosperous 1992. I also wanted to take this opportunity to express my appreciation for your good work, quality design, creative solutions and your thoroughness. As you well know, the future will be made up of only those who have the above qualities.

Although we haven't had the number of projects we would like, I will look forward to associating with you on another Loews Hotel project. Thank you for your help on the Loews Annapolis Hotel. But my all time favorite remains the Netherland Plaza!

Kind regards,
